AI VISIT VERIFICATION AUDITOR

The AI Visit Verification Auditor is a system designed to audit caregiver visits through automated calls and SMS messages. The system contacts caregivers on a configured schedule, verifies visit-related information, records responses, and provides reporting and audit logs.

It confirms caregivers are where they are supposed to be.

AI PHONE CALLS

Automated outbound calls to verify visits

SMS VERIFICATIONS

Quick, reliable text message confirmations

RECORD & LOG

Capture responses and maintain audit-ready logs

REPORTING & INSIGHTS

Identify patterns, risks, and exceptions

SUPERVISOR
HOURS**

**PROTECT
REVENUE &
MARGINS**

**STAY COMPLIANT.
AVOID PENALTIES
& CLAWBACKS**

HOW THIS SAVES YOU MONEY

Fraudulent and unverifiable visits caught before payroll
2% of visits at a 300-caregiver agency, catching half

\$80,000–\$120,000
/ year recovered

Manual audit labor eliminated
2 supervisors x 8 hrs/week x \$28/hr

\$23,000
/ year back

Payroll overlap and early clock-outs flagged automatically
4% of shifts with time discrepancies x avg \$22/hr caregiver

\$18,000–\$30,000
/ year

Medicaid clawbacks prevented
one audit event avoided per year (industry avg)

\$40,000–\$75,000
/ year

Compliance penalties avoided
one plan of correction or citation prevented

\$15,000–\$50,000
/ year

CONSERVATIVE ESTIMATE:

\$176,000–\$298,000 / YEAR

in recovered billing, prevented errors,
and compliance risk avoided.

Protect your agency.
Verify every visit.
Secure your future.

Actual savings vary by agency size, caregiver count, visit volume, and operational complexity.
These figures are estimates based on common industry benchmarks and are intended for illustrative purposes only.
